# ENA Micro 1

## Simply coffee

The ultra compact 1 cup coffee machine is designed not only to make the perfect black coffee, but also to be as small as possible. It can be programmed with three user defined cup sizes, each in two aroma levels. The aroma preservation cover keeps the coffee beans fresh, the Aroma grinder gently grinds them, and the Micro brewing unit extracts the coffee under the ideal conditions. The intelligent preheating feature ensures that the coffee, crowned by a feather light crema, is always dispensed piping hot. Just add cream or milk as required to make the perfect coffee of your liking.

### Ultimate black coffee

Aroma grinder and Micro brewing unit for the ultimate espresso

### Simple operation

Touch panel with three user defined cup sizes and two aroma levels to choose from

### Compact

The ultra compact model, reduced to the absolute minimum 23 x 32.3 x 44.5cm

### Kind to the environment

The automatic energy saving mode, programmable switch off and patented Zero Energy Switch ensure high energy efficiency

DAILY OUTPUT – 10 to 30 cups per day

# F8 TFT

## Coffee around the clock

This is the first time that a TFT colour display has made an appearance in JURA's compact class. It makes operation using the Rotary Switch very easy and clear. Four speciality coffees can be individually programmed on the start screen, allowing you to prepare your favourite coffee in a flash around the clock. The innovative Aroma+ grinder makes sure that your long breakfast coffee is just as irresistible as the intense espresso, the classic café crème or the trendy latte macchiato. It grinds the fresh beans at twice the speed yet very gently and makes coffee pleasure an explosion of aromas at any time.

### Simple operation

TFT display with rotary selection

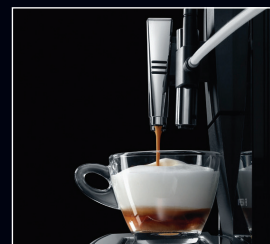

### Programme your favourite

Inspiring range of beverages

### Twice as fast

Aroma+grinder now twice as fast

### Cutting edge technology

Revolutionary fine foam technology

DAILY OUTPUT – 20 to 50 cups per day

## XJ9 Executive

### Perfectly designed, right down to the latte macchiato

The XJ9 Executive creates perfect latte macchiato, cappuccino, café crème, espresso and ristretto at the touch of a button. There are clear delivery points for white coffee, black coffee and hot water making ease of use even simpler. Meanwhile, the clear and symmetrical design, sophisticated chrome plated bean container and black finish add a touch of charisma.

#### Clear delivery points

For White Coffee, Black Coffee and Hot Water making ease of use even easier

#### Technologies

With the One Touch Cappuccino / Latte macchiato function, you can prepare speciality coffees topped with milk and milk foam at simply a touch of a button

#### 3.5" TFT colour display

As well as being easy to operate and programme, the machine is designed to be easy to care for

#### Intelligent fresh water system

Compatible with the Intelligent Fresh Water Kit

DAILY OUTPUT – 60 to 100 cups per day

# GIGA X8 Speed

## Diversity in self service

The high-performance GIGA X8 Professional with its elegant finish comes with a unique speed function, allowing it to prepare perfect coffee in record time. The optimally extracted coffee is mixed with hot water inside the machine by means of an extra bypass. Absolutely no flavour is lost during the process. The speed function and time-saving, intuitive operation make the GIGA X8 Professional ideal for use in catering. A large water tank and coffee grounds container allow for flexible and mobile use.

### 2 professional ceramic disc grinders

To extract the aromas from the coffee and channel them into the cup, the fresh, roasted coffee beans are first of all carefully ground

### Variable dual spout with 2 coffee spouts and 2 milk spouts

The dual spout dispenses the liquid into the cup or glass and can be smoothly height adjusted and width adjusted

### Twice the power for the perfect results

A classic favourite is once again enjoying increasing popularity and has become an insiders' tip in many parts of the world: the caffè latte

### GIGA Value Protection

GIGA customers can now enjoy an exclusive, new concept that is fully in line with Jura's high quality standard

DAILY OUTPUT – 150 to 200 cups per day

## Accessories

---

To fully enjoy your Jura experience we offer a selected range of accessories which will ensure your coffee experience is complete.

### JURA MILK FROTHER

£90.00 + VAT

This is perfect for those that want to foam hot milk for their black coffee drink. It has a 250ml capacity, 2 heat settings and is easy clean and dishwasher safe. The stylish design is offered in black to compliment the ENA.

### JURA COOL CONTROL UNIT - 1 Ltr Milk Cooler

£150.00 + VAT

Designed perfectly to compliment the IMPRESSA F7 and XJ9 Professional this keeps your milk at a constant temperature of 4 degrees C with a capacity of 1 Litre. The removable stainless steel milk container can be stored in a fridge overnight. Very little noise emission with low energy consumption. Finished in black or white.

### JURA COMPRESSOR COOLER PRO - 4 Ltr Capacity

£950.00 + VAT

This 4 litre capacity fridge has been designed for the large Jura 'bean to cup' machines like the GIGA X8 Professional. Controls the temperature at 4 °C with a removable milk container and an easy clean interior. The JURA Compressor Cooler Pro is virtually silent while operating.

## Bean to Cup - How it compares

Now fabulous coffee comes to the office and boardroom. The Swiss made Jura 'bean to cup' espresso machines do everything you need to make great coffee every time for you, your customers and your staff... so simple, one touch operation.

£2.50

£2.50

£2.00

£0.15 pence

Average Cost	On the high street	Capsule	Bean to Cup	SAVING (vs high street)
Week	£125.00	£16.50	£4.50	£125.50
Month	£500.00	£66.00	£18.00	£482.00
Year	£6000.00	£792.00	£216.00	£5784.00

\*Based on 5 people in an office having 2 cups of coffee every day, 5 days per week, 4 weeks per calendar month.

\*\*Cost of equipment and/or servicing or repairs not included.

	Advantages	Disadvantages
JURA Bean to Cup	<ul style="list-style-type: none"> <li>- Very low cost per cup.</li> <li>- Freedom to change blends.</li> <li>- Fresh beans every time.</li> <li>- Almost no waste packaging.</li> <li>- Environmentally friendly.</li> <li>- Aesthetically pleasing.</li> <li>- High quality.</li> </ul>	<ul style="list-style-type: none"> <li>- None.</li> </ul>
Capsule	<ul style="list-style-type: none"> <li>- Low cost equipment.</li> <li>- Complete portion control.</li> <li>- Consistent quality.</li> </ul>	<ul style="list-style-type: none"> <li>- Expensive cost per cup.</li> <li>- Larger capacity machines not always available.</li> <li>- Milk function not usually integrated.</li> <li>- Choice restricted by capsule supplier.</li> <li>- Large amounts of waste packaging.</li> </ul>
