SINFONIA

L444K0

Are you looking for a glass fronted vending machine? One that is dedicated to can and bottle products, has a wide glass window to enhance the impulse to buy, has an innovative delivery system, has a low energy consumption and that can resist mild vandalism? **SINFONIA** by Necta is the answer!
Sinfonia shares the same aesthetic design as the Samba & Canto ranges and is available in 2 versions: Sinfonia 6 selections and Sinfonia 9 selections.

DESIGN

- Sturdy and fully insulated metal cabinet
- Elegant and stylish flat door designed in line with Samba and Canto
- Large glass window
- L.E.D. lighting of the cabinet

USER INTERFACE

- Automatically controlled door to delivery area, enhanced by L.E.D lighting once product has been delivered
- Numeric keypad
- Ergonomically designed to comply with current DDA regulations
- Possibility to fit 3 payment systems at the same time

DISPENSING TECHNOLOGY

- Removable trays with no electrical connection: the mechanical movement smoothly pushes the drinks towards the dispensing position which adds to the energy saving
- The trays are sturdy but light weight and they are easy to handle thanks to their slide & tilt movement
- The dispensing system is FIFO
- New delivery system which dispenses the product in less than 8 seconds

ENERGY CONSUMPTION

- Sinfonia is an enviromental friendly and low consumption model thanks to:
  - Energy Saving management
  - Insulation of the cabinet
  - Low consumption LED lighting
  - Product dispensing from the trays without the need for motors
  - Low energy consumption cooling unit

Sinfonia 6 has an energy consumption of 252 Wh/h and has been rated A in the EVA-EMP 3.0 energy consumption protocol; **Sinfonia 9** has an energy consumption of 238 Wh/h and has been rated A++ in the EVA-EMP 3.0 energy consumption protocol.
